A Traditional Culture Experience for Modern Teams

Taste · Floral · Connect · Create

In a cup of tea, feel the warmth and wisdom traditional culture brings to modern teams.

INTRODUCTION

About the Experience

Tea is a living wisdom carried through five thousand years of Chinese civilisation. From daily life to hospitality and the twenty-four solar terms, a cup of tea connects nature, society and the bonds between people.

Built on Chinese tea culture, the experience weaves together the solar terms, the six tea families, sensory awareness and hands-on interaction, inviting your team to set aside the rush of work and to taste, talk and collaborate.

No prior tea knowledge is needed. Everyone begins with a single cup, noticing its colour, aroma and taste, discovering different teas, and growing closer through a shared experience.

A cup of tea is more than a taste, it lets us slow down, feel the present again, and connect with one another.
